SUMMARY

Backend Developer at Leapswitch Networks, currently focused on **Python, Django and Next.js**, building on 2+ years of hands-on full stack experience with **Laravel and MySQL**: web applications and REST APIs, plus frontend work in JavaScript and React.

EXPERIENCE

- **Backend Developer | Leapswitch Networks** Oct 2025 - Present (Onsite)
 - Building and maintaining backend services and REST APIs with Python/Django, Laravel and MySQL, focused on scalable, performant server-side systems and database design.
 - Using Claude and Claude Code in the daily workflow for code review, debugging and documentation, with every change reviewed and tested before it ships.
- **Full Stack Web Application Developer | SkillLogic Technologies (Remote)** Jul 2025 - Oct 2025
 - Built web applications with Laravel (backend), React with TypeScript and Tailwind CSS (frontend) and MySQL (database), focusing on clean, secure code and modular design.
 - Collaborated remotely with cross-functional teams to deliver client-specific solutions under tight timelines.
 - Used GitHub Copilot together with ChatGPT Plus (paid model) for coding, debugging and documentation.
- **Junior Full Stack Web Developer | Technicul Cloud LLP, Mumbai** Oct 2023 - Oct 2024 (Onsite)
 - Developed and maintained Laravel-based REST APIs for real-world apps like Posterking and Doornext, powering communication with mobile frontends (Flutter).
 - Worked across full stack: Laravel (backend), MySQL (DB), JavaScript/Bootstrap (frontend).
 - Improved performance and UI consistency across major projects like Eternal Weddingz, SeaAndBeyond, and Archerkids.
 - Collaborated with team leads to debug production issues and implement new feature modules on tight deadlines.
 - Used GitHub Copilot as the main AI coding assistant for code completion and debugging.

EDUCATION

- **Bachelor of Science in Computer Science** CGPA: 9.23 / 10
Shankar Narayan College of Arts & Commerce (affiliated to University of Mumbai) 2020 - 2023

TECHNICAL SKILLS

- **Current Focus:** Python, Django, Next.js
- **Professional Experience:** Laravel, MySQL, REST APIs, MVC
- **Languages:** Python (current focus), JavaScript, Core Java
- **Frontend:** Next.js (current focus), ReactJS, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Databases:** MySQL (Relational Database)
- **Tools/Others:** Git, GitHub, GitLab, Postman, AWS, Linux
- **AI Tools:** Claude Code, ChatGPT, GitHub Copilot

PERSONAL PROJECTS

- **DjangoBaseX** – Django REST API + Next.js Frontend Sep 2026 · [Project Repository](#)
 - A Django 5 and Next.js full stack starter kit (the Python counterpart of LaraBaseX) with a Django REST Framework API, OpenAPI docs and a Next.js frontend with a typed API client.
 - Implemented authentication: login, token refresh, password reset, rate limiting and TOTP two-factor.
 - Tools used: Python, Django 5, Django REST Framework, Next.js, React, TypeScript, Tailwind CSS, PostgreSQL, Docker
- **LaraBaseX** – Laravel Admin Panel + ReactJS Frontend Aug 2025 · [Project Repository](#)
 - A Laravel-based starter kit with built-in authentication, role & permission management, and CRUD generation, so developers can skip repetitive setup and start building features right away.
 - Tools used: Laravel 12, MySQL, ReactJS (Vite + Axios), Shadcn UI, Tailwind CSS

CERTIFICATIONS & TRAINING

- **Java Full Stack Development Trainee, Anudip Foundation** Jun 2023 - Sep 2024 (Hybrid)
 - Hands-on training in Spring Boot, Hibernate, Angular, and Git; built practice apps using REST APIs and the MVC design pattern. Certified: Advanced Program on Java Full Stack Development using Angular (Anudip / Mettl, 2024).
- **Youth Employability Program, TNS India Foundation** Aug 2022 - Sep 2022
 - Completed Campus to Digital Careers (C2DC) program with Accenture: soft skills, communication, and professional readiness.
- **Open Source Contributor**
 - Participated in Hacktoberfest (2021), GWoC (2021), GSSOC (2022), and JGEC Winter of Code (2022).
